Economic development of China is like a giant magnet that attracts all sorts of "foreigners". Not only the number of workers who travel to China is increasing every year, but there are more and connect more marriages with foreigners every year. A friend told me Australian Foreign his intention to go to China: first, take a look at the evolution of China. Second, look for opportunities for personal development. Third, find a Chinese woman. For his girlfriend had just married a Chinese woman who has hair blacks, big eyes and delicate skin and gentle personality and is a reliable partner. Watch live happily, but also the idea of marrying a Chinese woman. Why Chinese women are so fascinating? What are the qualities we value them?

Black Hair

Fever is dominated by the color of people's lives. But our eyes, hair, blacks, has a special meaning: mysterious, sexy, slim and attractive. In my opinion, if a Chinese woman has a black silk like hair, she is beautiful as an angel. Perhaps most foreigners like to go as hair blacks and Chinese women in Vancouver. Shawn, an exporter of 28 years, confirmed this point. He said that Chinese women are perfect in bold, confident, intelligent, of course, is quite long, with hair blacks. when the opportunity will be lost.

Humor

Peter, 35 years old man from Italy, has lived in China for 5 years. Becomes too proud to marry a Chinese beauty with small eyes and thin lips. When asked is: "Do you think your wife is beautiful?" It 'just a typical Italian style, a smile, "Yes, I think it's perfect. Its appearance brings a delicate aroma of the mysterious East. In Italy, my friends say she is beautiful!" Rejoice, Peter and the sense of wife of 'humor, "communication with you always feel at ease." In his mind, it should be the most beautiful girls funny, and explains that humor is the most attractive qualities, not only in Italy but also in China. Probably most Chinese think that Chinese girls are very thin and delicate. But if you are a foreigner and travel in China will be a different experience, and raises a different perspective.

Course

Stroke is one of the traditional virtues of Chinese women. This means that a little 'shy, mysterious, and has a rich connotation. James, 30, Italian-American, has been in China for a year and a half. He boasted that he is well aware of Chinese culture. He said that the images are of Chinese women in films by Zhang Yimou, the basic image of rural women. and women in cities are more representative. Even if the United States, many Chinese women are fast, but he wants to go to China to see the traditional images of Chinese women. When it should be, said James are the Chinese girls implied that attracted them. Perhaps his feelings towards China. Terence, aged 32, Canadian, the designer says that Chinese women have their charm, and I like the Chinese, what people say, the intelligence, but they are not exposed to the United States.

Gentility

The elegance and sweet tenderness, all the charm of women. Refinement of Chinese women is very traditional and in the eyes of foreigners, our admiration for elegance. Steve Clinton, a professor at the University of Virginia, in North America, is an ambitious man, and he has a Chinese wife, a beautiful kind woman. His love for the nobility of Chinese women are, by their sincere thanks. But most of the sense of direction can be changed charm. Upon his arrival in China for the first time, Steve found that women in the north are very attractive, as long legs, and his beauties are very similar to American women. However, after China for some time among the women of the south are like take out the competition with a gentle temperament, deeply touching. He rented a rule through the eyes of Shinning, "Sichuan girls are really beautiful. No wonder that there is an ancient Chinese proverb," it is better not to Sichuan would not help your career. "In other words, the girls too good that can be distracting. This is to maintain the beauty of Sichuan Province.
